date	EXAM
2016. January	Three dates: one in December and two more dates on the second and third week of January.

Short description of the course:

Theoretical course of the fifth semester with the task to introduce students to the theoretical background of Urban Planning and Design with specially focusing on the knowledge and skills necessary for the successful participation in the Design courses later on in the curriculum. The course deals with the historical background, fundamental theories, basic typologies, most wide spread forms and basic sustainability aspects of urban design and planning.

According to university regulations class appearance has to exceed 70%! The class appearance will be checked at regularly during lectures. Low attendance will be incorporated in the semester grade.

The course ends with a written exam.

There is an optional possibility of gaining a mark: there is a reading assignment in the semester and by preparing a small task at an acceptable level connected to the reading assignment can result in a mark offer.
