

CROSS/HOUSE

Sustainable Housing– Cross-Cultural Society

The Department of Urban Planning and Design participate in a new CEEPUS network coordinated by the Faculty of Architecture in Belgrade

The new academic network „CROSS/HOUSE” was accepted as an “umbrella” network in April 2020. This status was given to new networks at the University of Belgrade. CEEPUS is a programme for the exchange of students and professors from the Danubian and neighbouring countries of Central, Eastern and South-eastern Europe. The target topic for this network is to form a higher-education platform for **East-European housing studies** in architecture and urbanism. The most noticeable reason to opt for this topic is a gap between the intensive housing development in this region in Europe and abundant related research in the one side and the lack of proper reflection of this dynamics in higher education in the other side. In accordance to this, the main aim of this network is to establish grassroots for the formation of prospective East-European housing studies at the faculties in architecture and urbanism that are the core of this network consortium.

Institutions-partners in this exchange network:

1. University of Belgrade – Faculty of Architecture, Serbia (COORDINATOR)
2. University of Banja Luka – Faculty of Architecture, Civil Engineering and Geodesy, Republika Srpska, Bosnia and Herzegovina
3. Czech Technical University in Prague – Faculty of Architecture, Czech Republic
4. Budapest University of Technology and Economics – Faculty of Architecture, Hungary
5. Tadeusz Kościuszko Krakow University of Technology – Faculty of Architecture, Poland
6. Politehnica University of Timișoara – Faculty of Architecture and City Planning, Romania
7. University of Maribor – Faculty of Civil Engineering, Transportation Engineering and Architecture, Slovenia

Coordinator of the network and the main representative on the behalf of the Faculty of Architecture in Belgrade:

- Dr. Aleksandra Djukić, associate professor

Technical secretary of the network:

- Dr. Branislav Antić, teaching assistant
